

Alfa 51 Specifications and Photo

The ALFA 51 is the flagship of the Alfa fleet.

Alfa 51 offers a performance sailing compartment and the optimum comfort on board. The cockpit is the largest in boats of its category. The two outboard steering stations allow clear passage from the aft swim platform to the companionway steps into the saloon. The perfectly integrated deck hardware simplifies sail handling. The main traveller and the Genoa tracks are totally removed from the deck passageways. Three superb sun bathing areas are located on the coach roof.

On board the overall concept of space and interior design with the vastness of the Alfa 51 salon/nav./table/galley gives an extraordinary open feeling. The choice of quality material such as teak and the carefully detailed finish work gives the impression of traditional luxury construction. The U-shaped galley, wide and well ventilated, is fully functional with a top quality stove, oven and icebox, analogous to the many easy-access storage cabinets and lockers. The central salon comfortably welcomes 10-11 guests in its U-shaped settee. The navigation station is particularly well designed. Many hatches and port lights provide soft natural lighting throughout the interior.

All cabins accessible from the main salon (on the corridor in charter version) and have comfortable berths (2,00m long) and stowing capacities (shelving cupboards and large drawers under the berths). The hull is made by G.R.P. with longitudinal and vertical reinforcements and it's totally rigid. The chosen hardware, electrical, engine and plumbing systems, are all state of art. Functionality veiled by quality and sumptuous carpentry.

Cabinet work of the highest workmanship highlights the warm interior design of the architect. Built on order according to your specifications, your sailing boat will reflect your personality and sailing habits.

There are four versions of the ALFA 51 available for charter.

1. **Alfa 51** (4+1) cabin, 5 WC
2. **Alfa 51 Exclusive** (4+1) cabins, 5 WC with generator and fully air conditioned

3. Alfa 51 Exclusive 5 cabins, 3 WC, generator and fully air-conditioned
4. Alfa 51 Exclusive VIPs (3+1) cabins and 3 WC.
